

Tom Horne, Superintendent of Public Instruction

Arizona Adult Education in Graham & Greenlee Counties

Program Year 2004-2005

Adult Education is the delivery of literacy services to out-of-school adults: those 16 years of age and older who are not enrolled in a K-12 school. It includes:

- **Adult Basic Education (ABE):** instruction in reading, writing, and math through the 8th grade level
- **Adult Secondary Education (ASE):** instruction in reading, writing, math, science and social studies; may lead to the attainment of an alternative high school diploma
- **English Language Acquisition for Adults (ELAA)**
- **Citizenship Test Preparation**

Safford Unified School District, Safford, AZ

The Need for Adult Education in Graham and Greenlee Counties

There are **42,036** people in Graham and Greenlee Counties. **77.1%** are 16 years old or older. Of that number, **22.6%** (7,326) are neither enrolled in school nor have a high school credential.*

Of those 18 and older, **1.5%** of the total county population speaks English "not well" or "not at all."*

GED Testing in Graham and Greenlee Counties

What is the GED and why is it important to our community?

The General Educational Development (GED) Test is a five-part, seven-hour exam in reading, writing, science, social studies, and mathematics. Across the nation, one-third of graduating seniors receiving traditional diplomas cannot pass the GED. Research has shown that compared to students with no diploma, students with a GED experience significant improvement in income level and are more likely to become involved in the educational experience of their children.

More than 15,000 students in Arizona take the GED Test annually. There is no Federal or State allocation to fund the processing of GED diplomas or transcripts. The cost of these vital unfunded mandates is taken from the adult education allocation. In Program Year 2004-2005:

254 High School Equivalency Diplomas were issued in Graham and Greenlee Counties

The GED Test was revised in 2002. The content of the GED 2002 Series Test now places a greater emphasis on the workplace and higher education needs. The major changes include:

- Inclusion of higher-order thinking skills
- Increased emphasis on critical thinking and problem solving
- Incorporation of more business-related material
- Inclusion of higher-level problem-solving skills in Mathematics
- Incorporation of alternate format or open-ended questions in Mathematics
- Usage of a scientific calculator in one part of the Mathematics test

Facts About GED Testing in AZ:

Over 25% of all high school diplomas issued in Arizona each year are earned through the GED Testing program.

During program year 2004, 40% of those taking the GED were 16 to 22 years of age.

An individual without a high school diploma will earn considerably less than someone with a high school equivalency diploma.

GED graduates are admitted to the state community colleges just like traditional high school graduates.

Arizona State University, Northern Arizona University and the University of Arizona admit GED graduates who have scored at a specified level above the GED passing score.
